

Inspector

Inspections Made Easy

SIMPLE, EASY TO USE

Inspector+ is a one-of-a-kind app that allows for you to utilize modern technology to move your inspection process past pencil and paper. Utilizing barcode scanning technology, Inspector+ allows employees to scan an inspection item or area and send their reports directly to a back-end management system hosted securely in Cloud with Microsoft Azure.

Inspections Made Easy

USER'S HANDHELD

DATA AT YOUR FINGERTIPS

Find any inspection report with the click of a button with Inspector+. Reports are captured by the user during their audit with a mobile handheld providing real-time data what is stored securely in the Cloud with Microsoft Azure. Manager's can quickly login to the Dashboard to get a quick snapshot of what is happening including inspection data and the status of maintenance work orders.

Inspector+ is a cost-effective Android based maintenance and inspection app designed to increase productivity, ensure compliance, and expedite maintenance reporting.
